Software engineer graduating August 2026, with hands-on production experience in backend integration, RESTful APIs, and data management using Node.js and PostgreSQL. Currently completing a QA internship at Bitam de México where I write and maintain Playwright E2E automation for a production SaaS. Open to remote opportunities.

Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Sass/SCSS
- **Backend:** Node.js, Express.js, Python, PostgreSQL, MariaDB, MySQL, Prisma ORM, RabbitMQ.
- **QA & Testing:** Playwright (E2E), Zod, Postman.
- **Cloud & Workflow:** Cloudinary, Docker, Vercel, Render, Git/GitHub.

Professional Experience

Bitam de México (QA Intern)

Jan 2026 – May 2026

- Wrote E2E automation scripts with **Playwright + TypeScript** covering critical user flows in production, validating UI behavior and backend processing integrity.
- Validated end-to-end user flows across the **SaaS** from interface interactions to backend processing ensuring correct system behavior across multiple workflow paths.
- Detected and documented UI failures through system response analysis, contributing to the visual stability of the production application.

Selected Projects

Bug Tracker MVP (Full-Stack Web App)

Jan 2026 – Present

- Built a ticket management system using **Next.js, TypeScript, Prisma, and PostgreSQL**, ensuring data integrity through **Zod** validation.
- Architected **Server/Client Component** boundaries with **App Router**, eliminating **N+1 queries** via **Prisma** and managing UI state through **React Context**.

Yama Japanese Food MVP (Mobile-first web App)

Jan 2026 – Feb 2026

- Developed a mobile-first digital menu using **Next.js and Tailwind CSS**, optimizing UX across multiple devices.
- Achieved a **perfect 100/100 Google Lighthouse** score across *Performance, Accessibility, and SEO* by optimizing Next.js rendering strategies and asset delivery.

Family Cookbook (Full-Stack Web App)

Sep 2025 - Dec 2025

- Developed a full-stack application architecting data flow between a **React.js + TypeScript frontend, Node.js RESTful APIs**, and a **serverless PostgreSQL database**.
- Integrated **Cloudinary API** for secure image storage and CDN delivery, and containerized the full stack with **Docker multi-stage builds and Docker Compose**.

AI Legislative Assistant (Mobile-first AI Chatbot)

July 2025 – August 2025

- Built a real-time conversational **UI in React + TypeScript** integrating the **Gemini API** to handle streaming responses and loading states for a smooth user experience.
- **Containerized** the application with **Docker** for consistent execution across environments.

Education

Instituto Tecnológico de Ciudad Madero

Bachelors in Software Engineering

Cd. Madero, Tamps

Expected August 2026

Certifications

- [Responsive Web Design · freeCodeCamp](#)
- [JavaScript Algorithms and Data Structures · freeCodeCamp](#)

Languages

- Spanish (Native).
- English (Advanced).
